DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species A (Figures 1-5 and 7-9) in Paper No. 6 is acknowledged.
2. Claims 5-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a non-elected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

Drawings

3. This application has been filed with informal drawings, which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.
4. The drawings are objected to under 37 CFR 1.83(a) because they fail to show "hooks 28" as described in the specification (see page 11, line 15). Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

5. Claim 2 is objected to because of the following informality: needs to remove the comma (,) placed after "tubular graft and" (see line 3). Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is indefinite as to the scope of the invention since line 1 recites a "stent/graft assembly" while line 3 recites a "fixation device" (see also page 11, lines 18-19). Claim 2 recites the limitation "end-to-end disposition" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Frantzen et al. (US 5,728,131 A; cited in Applicant's IDS). As seen in Figures 5, 6, and 9, Frantzen et al. teach the claimed stent/graft assembly (see also column 4, lines 57-61; column 5, lines 6-14; column 6, lines 40-61; column 7, lines 5-20 and lines 44-47).
